Request for Proposal

LETTER OF INVITATION

13 April 2021

Dear Sir/Madam

Subject: Conducting Feasibility Study for the NILALEG Project Encroacher Bush Biomass Charcoal Piloting Plant

1. You are hereby invited to submit technical proposals for consultancy services required under: **Conducting Feasibility Study for the NILALEG Project Encroacher Bush Biomass Charcoal Piloting Plant**, which could form the basis for future negotiations and ultimately, a contract between you and the *EIF: NILALEG Project*.
2. This Request for Proposal (RFP) has been issued under the method of Open national bidding for Namibian consultancy firms.

3. Aim of Consultancy

The Environmental Investment Fund invests in and support projects and activities, which promote the national development strategy of the Government of the Republic of Namibia (GRN). The entity works with different stakeholders including donor communities to Implement Project Activities On the Ground. **The consultant is expected to provide consultancy services to Conducting Feasibility Study for the NILALEG Project Encroacher Bush Biomass Charcoal Piloting Plant**

4. The following documents are enclosed to enable you to submit your proposal:
 - (a) The Terms of Reference (TOR) [Annexure 1];
 - (b) Supplementary information for consultants, including a suggested format of curriculum vitae [Annexure 2]; and
 - (c) A sample format of the Service Contract under which the service will be performed [Annexure 3]
5. Any request for clarification should be forwarded via email in writing to the Environmental Investment Fund of Namibia (EIF), **Attention: Joseph Elagon email: JElagon@eif.org.na at 061 431 7738/00 or Email: PBuys@EIF.ORG.NA Tel: 061-431 7705**. Request for clarifications should be received **04 days** prior to the deadline set for submission of proposals.

6. The Government of the Republic of Namibia requires that bidders/suppliers/contractors participating in the procurement in Namibia observe the highest standard of ethics during the procurement process and execution of contracts.

7. Eligibility

(a) A consultant that is under a declaration of ineligibility by the Government of Namibia in accordance with applicable laws at the date of the deadline for bid submission and thereafter shall be disqualified.

(b) Proposals from consultants appearing on the ineligibility lists of African Development Bank, Asian Development Bank, European Bank for Reconstruction and Development, Inter-American Development Bank Group and World Bank Group shall be rejected.

8. Submission of Proposals (Hand Delivery)

The proposals from the shortlisted consultants shall be submitted in two separate envelopes, namely Technical and Financial proposal, and should follow the form given in annexure 2 - "Supplementary Information for Consultants". **The proposals must be Hand Delivered deposited in the bid box, EIF office, 1st floor, Reception on or before: Friday, 14 May 2021, 11H00 AM.**

Late submissions will be rejected.

9. Evaluation Criteria

LEGAL AND ADMINISTRATIVE COMPLIANCE

#	DESCRIPTION	Bidder	
		Yes	No
1.	A valid certified copy by the Namibian Police of the Company Registration Certificate or Registration of defensive name if applicable issued by the Ministry of Industrialization, Trade and SME development or BIPA;		
2.	Certified copies of Identification Documents (IDs) of the shareholders or members of the Trustee as certified by the Namibian Police;		
3.	A valid original of a Good Standing Tax Certificate from the Receiver of Revenue;		
4.	A valid original of a Good Standing Certificate from Social Security Commission;		
5.	Bidder has submitted the duly filled in, signed, and dated Bid Submission Sheet Form; (Form F-1)		
6.	Bidder has submitted Curriculum Vitae of Consultants (Form F-2)		
7.	A duly completed and signed Bid Securing Declaration form		
8.	A duly completed and signed Self-Declaration		
9.	An undertaking on the part of the Bidder that the salaries and wages payable to its personnel in respect of this proposal are compliant to the relevant laws, Remuneration Order, and Award, where applicable if it is awarded the contract or part thereof		
6	OVERALL LEGAL AND ADMINISTRATIVE COMPLIANCE		

TECHNICAL ASSESSMENT

#		DESCRIPTION	Proportional value in %	Bidder
1	T _T	Overall Technical features: <ul style="list-style-type: none"> ▪ Brief description of why the consultant considered as the most suitable for the assignment (10) ▪ Proposed methodology and on how the consultant will approach and complete the assignment responding to the Terms of Reference (30) 	40	
2	T _d	Delivery – <ul style="list-style-type: none"> ▪ Work plan (10) 	10	
3	T _o	Overall ability and capability to perform the work – <ul style="list-style-type: none"> • (30) Experience of previous relevant consultancy projects completed with 3 references letters provided. <i>(10 points for each reference letter)</i> • Qualifications, Training, Education and Knowledge of the Proposed Team (20) 	50	
4	T _s	OVERALL TECHNICAL SCORE	100	
		Overall Ranking		

Bidders obtaining more than 70% of the Technical Score shall qualify for the financial evaluation.

FINANCIAL EVALUATION

Financial Score

The Financial Score will be calculated for each bidder in accordance with the following formula:

The formula for determining the financial scores is the following:

$F_s = 100 \times F_m / F$, in which F_s is the financial score,

F_m = is the lowest price proposal and

F = the price of the proposal under consideration.

$$\frac{\text{the lowest price proposal} \times 100}{\text{the price of each proposal}}$$

Bidder	Bid Price (from lowest to highest)	Financial Score

TOTAL SCORE AND FINAL RANKING BIDS:

Calculation of Bid Total Score

The Total Bid Score, B_s , will be calculated using weighting factors applied to the Financial score and the Technical score. The formula for B_s is:

$$B_s = 0.7 \times T_s + 0.3 \times F_s, \text{ where}$$

B_s = the Bid Total Score

T_s = the Technical Score

F_s = the Financial Score

Bidder	Technical (Score \times 0.7)	Financial (score \times 0.3)	Total Bid Score	Rank

10. Deciding Award of Contract

Qualification and experience of the consultants shall be considered as the paramount requirement. The proposals will be evaluated on the basis of a maximum of 70 marks for Technical Proposals and 30 marks for Financial proposals. Proposals from consultants should score at least 70 marks for the Technical Proposals to be retained for further consideration.

Only those consultants scoring a total of 70 marks on the overall assessment shall be considered for the assignment. Negotiations will start with the Consultant scoring the highest marks and if negotiation is not successful, negotiation will start with the next best ranked Consultant and so on until an agreement is reached. Should you be contacted for negotiations, you must be prepared to furnish the detailed cost break-down and other clarifications to the proposals submitted by you, as may be required to adjudge the reasonableness of your price proposals.

11. Rights of Environmental Investment Fund of Namibia (EIF)

- (a) Please note that the *EIF* is not bound to select any of the consultants submitting proposals.
- (b) Please note that the cost of preparing a proposal and of negotiating a contract including visits to Namibia, if any, is not reimbursable as a direct cost of the assignment.

12. Duration of Assignment

The actual work will be limited to **35 days'** worth of effort spread over a period of **two months**.

13. Validity of Proposal

You are requested to hold your proposal valid for **90 days** from the deadline for submission of proposals during which period you will maintain without change. The *EIF* will make its best efforts to finalize the agreement within this period.

14. Commencement date of Assignment

Assuming that the contract can be satisfactorily concluded in **7 days**, you will be expected to take up/commence with the assignment upon signing of contract

15. Tax Liability

Please note that the remuneration which you receive from this contract will be subject to normal tax liability in Namibia; but the *EIF* shall pay directly or reimburse the taxes, duties, fees, levies and their impositions in Namibia related.

16. Insurance

The Consultant shall meet the cost of any insurance and/or medical examination or treatment required by him/her in the course of performing the services.

17. The *EIF* would like to thank you for considering this invitation for submission of proposals.

Yours faithfully,

Joseph Elagon
Procurement officer

Annexure - 1**SUPPLEMENTARY INFORMATION FOR CONSULTANTS****Proposals**

1. Proposals should include the following information:
 - (a) Technical Proposals should include the following.
 - (i) Curriculum Vitae of Consultant (Form F-2).
 - (ii) An outline of recent experience on assignments/ projects of similar nature executed during the last five years (Form F-3)
 - (iii) Attached at least three (3) traceable reference letters.
 - (iv) A description of the manner in which the Consultant would plan to execute the work.
 - (v) Copies of Qualifications.
 - (vi) The Consultant's comments, if any, on the data, services and facilities to be provided by the Public body indicated in the Terms of Reference (TOR).

(vii)

2. The financial proposals should be given in the form of summary of Contract estimate (Form F- 4)

- 3. The proposals shall be submitted in ONE Original hard copy and TWO (2) hard Copies and one (1) USB/flash drive/memory stick of the soft copy of the technical proposal.**

Contract Negotiations

1. The aim of the negotiations is to reach an agreement on all points with the Consultant and initial a draft contract by the conclusion of negotiations. Negotiations commence with a discussion of Consultant's proposal, the proposed work plan, and any suggestions you may have made to improve the Terms of Reference. Agreement will then be reached on the final Terms of Reference and the bar chart, which will indicate periods in [weeks/months] and reporting schedule.

2. Once these matters have been agreed, financial negotiations will take place and will begin with a discussion of your proposed payment schedule.

Title: Conducting Feasibility Study for the NILALEG Project Encroacher Bush Biomass Charcoal Piloting Plant

I/We the undersigned declare that:

1. I / we are not blacklisted by the Government of Namibia in accordance with applicable laws at the date of the deadline for bid submission;
2. I/ we are not blacklisted by African Development Bank, Asian Development Bank, European Bank for Reconstruction and Development, Inter-American Development Bank Group and World Bank Group;
3. I/ we will submit a statement on past and present declaration of ineligibility, if any, by any local/international agency or any termination of contract for unsuccessful completion of assignment, giving adequate details to enable a fair assessment;
4. I/ we will inform the contracting authority, without delay, of any situation constituting a conflict of interest or could give rise to a conflict of interest;
5. I/ we will not sought, attempted to obtain or accept any advantage, financial or in kind, to or from any party whatsoever, constituting an illegal or corrupt practice, either directly or indirectly, as an incentive or reward relating to the award of the contract.

Declared at _____ this ____ day of _____ 2021.

Signature (of duly authorised officer): _____.

Full Name and Designation: _____

Terms of Reference for the Feasibility Study

“Encroacher Bush Biomass Charcoal Piloting Plant”

1. Introduction

The Government of the Republic of Namibia, with support from the United Nations Development Programme (UNDP) and the Global Environment Facility, has embarked on a 6-year project, led by the Ministry of Environment, Forestry and Tourism (MEFT), to support regional councils, constituencies and communities to implement an integrated landscape management approach in key agricultural and forest landscapes, and to reduce poverty through sustainable nature-based livelihood strategies, that also promote the protection of biodiversity, restoration of forests as carbon sinks, and contribute to avoiding, reducing reversing land degradation.

The NILALEG Project has four components illustrated below, being implemented intertwinably by local based sectoral consortia and technical specialists at five landscapes and at national level.

Project Component	Responsible Agency	Government
Component 1: Strengthening institutional coordination and governance mechanisms for an integrated landscape management approach	MEFT, In cooperation with MoF, MAWLR, MLR, research bodies	
Component 2: Implementation of the integrated landscape management approach in target landscapes	MEFT, In cooperation with MAWLR (DAPEES), MURD, MTI civil society	
Component 3. Sustainable financing for implementation and upscaling of the integrated landscape management approach	EIF, In cooperation with MITSMD, NYS, MoF, private sector	
Component 4. Knowledge management, monitoring, and evaluation, gender and impact assessment	MEFT, In cooperation with NPC (M&E), tertiary institutions	

Component 3 i.e. Sustainable financing for implementation and upscaling of the integrated landscape management approach is designed to achieve the outcome of enhanced access to finance, technical assistance and market information to pilot and scale-up the integrated landscape management approach and sustainable enterprises. This component is implemented under the auspices of Environmental Investment Fund of Namibia with technical support of project Technical Specialist #4: Finance and Enterprise Development, and Technical Specialist #3: Agroforestry, Rangeland Management and Restoration.

One of the component outputs is to scale-up a public works programme for landscape restoration, piloting sale of charcoal and by-products from bush control on encroach farms, with pilot area of 3,000 ha. National Youth Service (NYS) has highly bush encroached Gemsbokpan farm about 60km from Rietfontein Youth Centre in Otjozondjupa Region. The NYS aspire to venture in harvesting biomass, its

processing into charcoal as a way of cleaning the area for the best practice of crop and livestock production; and impact on national development and youth empowerment. It is equally envisaged to provide an opportunity for motivated and talented youth to “graduate” from the programme, and set up their own small businesses doing bush thinning and charcoaling on small scale commercial farm, with support to access loan finance for equipment.

2. Rational of work

The main purpose of the current NILALEG bush encroachment de-bushing is to create conducive environment for the practice of agriculture mainly crop and livestock production for National Youth Service employment creation, training and poverty reduction. To this effect, NILALEG Project in support of the NYS under the auspices of Environmental Investment Fund of Namibia (EIF) is to initiate biomass harvesting, processing and production of charcoal, tar and biochar from cleared encroacher bush on its Gemsbokpan farm and surrounding commercial/resettlement farms.

Therefore, this Term of Reference seeks for a biomass business development consultant to conduct a feasibility study to confirm the proposed business viability; development of sustainable value chain for utilisation of encroach bush towards charcoal production, processing, packaging and marketing.

3. Objectives

The consultant is expected to provide specialised technical analysis and financial forecasts that will assist and guide NILALEG and its implementation consortia during planning, designing and establishment of proposed biomass production facilities. Hence, the objectives of the consultancy are:

- 3.1 to conduct feasibility study for establishment of a sustainable biomass production plant at the identified farms/sites of the NYS
- 3.2 validate and confirm assumptions/concept through a formalised business case containing detailed evaluation of costs, benefits, risks and opportunities (SWOT Analysis)
- 3.3 to present recommendations for strategic location, operational modalities, potential final products and biomass value chains vs the market, logistics, financial projections, infrastructural and management plan for the business
- 3.4 to recommend institutional set up, management and operational strategies
- 3.5 to propose a design of the NYS youth capacity building programs

4. Specific tasks

The expected final deliverable is a **feasibility study report and business plan** include among others the:

- 4.1 assessment of proposed biomass venture for the NYS in relation to the following:
 - a. evaluation of biomass potential (density, length of biomass harvesting, charcoal production), market and profit; location and Namibia biomass industry in general;
 - b. Establishment of PPP between NYS and public/private sector to enable business investment, biomass processing, charcoal production and commercialization both local and internationally.
 - c. Assess biomass production concept and consider ideal location, plant design (sketch), to provide evidence of potential sustainability biomass harvesting, processing, packaging and marketing;

- d. Propose a management structure *in lieu* of apparent Joint Venture partnership with private operator for skills, benchmarking, quality assurance, market access and socio-economic return evaluation;
- 4.2 analysis of business viability and implementation scenario of the proposed initiatives and determine the:
 - a. capital investment required,
 - b. market demand,
 - c. critical success factors,
 - d. capacity development support required,
 - e. environmental constraints,
 - f. operations arrangements appropriate to scale and complexity of the plant
 - g. political, economic, social, technological, environmental and legal (PESTEL) implications,
 - h. conceptual implementation plan and
 - i. access the existing infrastructure potential (road, water, electricity etc.), for the implementation of charcoal production initiative.
 - 4.3 financial returns on sustainable operations to justify the investment over ten-years,
 - 4.4 Public-Private-Partnership ratio in considerations of NILALEG underlying principles for initial investment and NYS empowerment programs,
 - 4.5 interrogate developments of similar nature in the area or elsewhere and determine the relevance of the venture. Then, advise on the suitability of the location for the development taking into consideration:
 - a. Accessibility and visibility
 - b. Ecological sustainability/advantage
 - c. Socio-economic dynamics
 - d. Competition
 - e. Market access and segmentation to understand where to focus efforts and marketing activities as well as future market potential
 - 4.6 harvesting plan and supply agreement with farmers determining economic impact to the recipient farmers.

5. Geographical scope

The feasibility study is to be undertaken for a biomass charcoal production piloting project to be set up in the Otjozondjupa region of Namibia. The project identified sites include the NYS Rietfontein centre (1616.23 ha) lies 40 kilometres south of Grootfontein as a potential processing and packaging site and the NYS Gemsbokpan farm (7 222 ha) lies 60 kilometres south of Rietfontein as a potential harvesting and carbonization site.

6. Deliverables

- Inception report having detailed study design and data collection tools
- Draft report (max. 30 pages), based on the objectives and tasks as mentioned above, to be submitted to the EIF before the meeting discussing the draft
- Final report (max. 30 pages), based on the objectives and tasks as mentioned above, no later than two weeks after reception of comments on the draft report

7. Timeline

The consultancy period will be 35 working days over two months' period. To start from the contractual agreement sign-off date and ending when the final feasibility study report has been formally approved by EIF and the NILALEG PMU.

Activity	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7
Kick off with EIF and partners/Inception Report	x						
Field work of the consultant and submission of progress report		x	x	x			
Submission and presentation of the preliminary findings/report					x	x	
Assemblage and submission of the final study findings							x

8. Qualification and experience required

A biomass harvesting, processing into charcoal, packaging and commercialization expert with the following attributes is required:

- Master's degree in business administration or other relevant fields, or at least 10 years of practical experience in relevant fields in Namibia or SADC
- An individual highly experienced in the charcoal production process with at least 10 years' experience in the related industry
- Experience in the biomass product marketing in Namibia, and internationally,
- Solid experience of biomass harvest planning, products design vs market demand in remote setting as well as joint venture facilitation
- Strong acumen on investment analysis and financial return projections

9. Budget

Payment will be made in trenches as percentages of a lump sum amount upon submission of outputs.

Submission of proposals

The interested consultant / consultancy firm is invited to submit the following application documents:

- Proposal, not exceeding 6 pages, outlining how the consultant(s) intend to implement the tasks mentioned above
- A proposed workplan with time frame
- Financial proposal detailing consultant(s) itemized fees, data collection and administrative costs
- CVs of the consultant(s) who will undertake the study
- 3 references letters need to be provided

Proposals should be delivered in a sealed envelope, clearly marked, NILALEG Project Charcoal Feasibility Study, and delivered to:

The proposals from the consultants shall be submitted in two separate envelopes, namely **Technical and Financial proposal**. **The proposals must be Hand Delivered deposited in the bid box, EIF office, 1st floor, Reception on or before: Friday, 14 May 2021, 11H00 AM.**
